

PRESS RELEASE

LaGuardia Airport, New York (LGA)

Allied Aviation was awarded the contract to provide Into-plane refueling services to American Eagle at LaGuardia Airport, New York effective June 1, 2008. American Eagle's operation at LGA is 70 departures per day, which makes them the second largest carrier at LGA. Allied's strong core of employees and management at LaGuardia providing into-plane services was important to provide support for the new operation. Additionally, Allied recently purchased new fueling and support equipment to provide safe and reliable services to American Eagle at LGA.

Allied maintains and operates the airport fuel facility, which is the sole source of jet fuel at LGA. Allied has maintained a presence at LaGuardia since 1972 and continues to seek new opportunities at LGA.

Allied Aviation is an independent organization dedicated to providing aviation services. Allied Aviation provides a full range of services including investment in fuel system infrastructure development, including management, construction and ownership related to facilities both on and off airport around the world. Allied Aviation stands on its reputation as being one of the leading commercial and general aviation fueling companies in North America. The safety of our employees, airline customers and airport environment is of utmost importance. We strive to provide a safe workplace while maintaining an excellent on-time performance to meet the needs of our customers.
