

## PRESS RELEASE

Allied Aviation has been awarded a five (5) year agreement to manage and operate the airport fuel system at Tucson International Airport (TUS). Allied Aviation replaces the Tucson Airport Authority in performing these functions. In addition to fuel facility management, Allied Aviation will be performing commercial into-plane fueling services to several airlines that service Tucson, including Southwest, Delta Air Lines, Alaska, Federal Express and SkyWest. Tucson fits well into the Allied Aviation footprint of locations as it strengthens our presence in the Southwestern United States.

At Tucson, Allied Aviation is responsible for the management of over 30 million gallons of jet fuel as well as providing into-plane fueling operations for over 7,500 departures a year.

Tucson International Airport is a public and military airport owned by the City of Tucson 8 mi south of downtown Tucson, in Pima County, Arizona. The airport is identified by the following codes (IATA: TUS, ICAO: KTUS). It is the second busiest airport in Arizona, after Phoenix Sky Harbor International Airport.

Allied Aviation is a 100% US owned private company dedicated to providing aviation services. Allied Aviation provides a full range of services including investment in fuel system infrastructure development, including management, construction and ownership related to facilities both on and off airport around the world. The Allied Aviation name originated from 1948 and the company stands on its reputation as being one of the leading commercial and general aviation fueling companies in the Western Hemisphere. The safety of our employees, airline customers and airport environment is of utmost importance. We strive to provide a safe workplace while maintaining an excellent on-time performance to meet the needs of our airline customers.
